Recycling Drive - Bring Your Recyclable Water Bottles and digital e-waste !!

(FS – Year 10)

Dear Parent,

Greetings from The Apple International Community School.

AICS GREEN GUARDIANS' SUSTAINABILITY DRIVE

"Save the Earth, it's the only home we have."

As part of our commitment to environmental conservation and sustainability, AICS is organizing a **Recycling Drive- AICS GREEN GUARDIANS**. This initiative aims to raise awareness about the importance of recycling and to encourage eco-friendly practices within our school community.

We request all students to bring **clean, empty recyclable water bottles** (plastic or other recyclable materials) and **old used digital e-waste** to school as part of this drive. These bottles and e-waste will be collected and sent to a recycling facility for proper processing.

Details of the Drive:

- **Every Monday throughout the year**
- **Venue: Classroom-** Please hand it over to the Form Tutor

Guidelines:

1. Please ensure the water bottles are **rinsed and free of any liquid or residue**.
2. Only bottles marked with recyclable symbols (e.g., ♻️) will be accepted.
3. Students are encouraged to bring at least **[3-5 bottles]** each.
4. **E-wastes** can be old CDs, wires, floppy discs, usb drives, memory cards, flash drives, speakers etc.,

Let's work together to make this initiative a success and do our part for the planet! Your participation will contribute to reducing waste and creating a cleaner, greener future for all.

Request the students to hand over the bottles to the respective Form Tutors.

Thank you for your support and enthusiasm toward this important cause!

Kind Regards,

Pretty Khosla
