

Update on School Reopening and Revised Survey
(FS to Year 10)

Dear Parents,

Greetings from **The Apple International Community School**.

In strict alignment with the latest directives of the KHDA that we have received with more detailed guidelines including additional protocols, conditions and regulations - such as restrictions on transport facilities etc, the school continues to adopt a phased and compliance-driven approach towards the resumption of on-campus learning.

At present, additional time is required to complete final-stage staff training on the new protocols, safety drills, emergency preparedness protocols, and full compliance validation as mandated by KHDA.

Accordingly, please note the following important updates:

- **Distance learning will continue until 24th April 2026**
- The school is currently finalising all safety, operational, and compliance requirements
- Tentative reopening is planned for 27 April 2026, strictly subject to KHDA approval

Transport Update:

As per current regulatory guidance, school transport services are not permitted at this stage. Parents are requested to make independent transport arrangements if opting for in-person learning once approved.

Mode of Learning – Parent Input Required:

As part of our compliance planning and to ensure a smooth and well-structured transition, the school will implement a dual delivery model, providing both in-person and distance learning options.

In light of these updated guidelines, we are sharing this **revised survey (named Survey-2)** to ensure that your response fully reflects your informed choice of mode of learning.

We kindly request all parents to fill out this survey, even if you have already responded to the previous one, as this will be treated as the definitive record of your preferred mode of learning for your child from 27th April 2026 onwards.

Kindly complete the survey form by **Friday, 17th April 2026, 6:00 p.m.** using the link below after which it will be closed.

IMPORTANT: [AICS Mode of Learning \(Contingency\) - Survey 2 – Fill in form](#)

Your response is critical in enabling the school to finalise staffing, time tabling, and operational arrangements in full alignment with KHDA requirements.

We appreciate your continued support, cooperation, and understanding as we work towards ensuring a safe, structured, and fully compliant reopening.

Kind Regards,

Pretty Khosla

Pretty Khosla
