

Distance Learning Extension until Friday, 6 March
(FS to Year 10)

Dear Parents,

Greetings from **The Apple International Community School**.

As per the directive from the Knowledge and Human Development Authority (KHDA), distance learning has been extended until **Friday, 6 March**.

All classes will continue as per the existing online schedule, and **attendance is mandatory**.

Please note the following regarding Assessments:

- The Assessment originally scheduled for **Monday, 2 March** will now take place on the **first day students return to onsite schooling**, once confirmed.
- Subsequent subjects will be conducted on the following scheduled school days, **with no preparatory leave**.
- A revised Assessment timetable with confirmed dates will be shared once the official return-to-school date is announced.

Student wellbeing remains our priority. Our pastoral and counselling teams are available to support students who may require additional reassurance. Parents may contact the School Counsellor or a member of the Senior Leadership Team if needed.

We will continue to monitor the situation closely and share updates as needed. Our priority remains a safe learning environment, continuity of education, and the wellbeing of every student.

Thank you for your continued cooperation and support.

Kind Regards,

Pretty Khosla
