

Distance Learning Extension until Friday, 17 April
(FS to Year 10)

Dear Parents,

Greetings from **The Apple International Community School**.

As per the directive from the Knowledge and Human Development Authority (KHDA), distance learning has been extended until **Friday, 17 April**. The continuation of distance learning has been deemed necessary as a precautionary measure to safeguard the wellbeing of students and staff.

The staff at AICS will continue to deliver the highest quality of education for your children during this time, which will be closely monitored by Senior and Middle Leaders, just as it would if we were in school physically.

All classes will continue as per the existing online schedule, and **attendance is mandatory**.

Student wellbeing remains our priority. Our pastoral and counselling teams are available to support students who may require additional reassurance. Parents may contact the School Counsellor or a member of the Senior Leadership Team if needed.

We do understand how challenging managing online learning is for working parents and for those of you working from home. We do urge you to take a moment to remember that many of our teachers are also parents doing their very best to teach your children, whilst also supporting their own children at home. As always, we will work together as a 'family' here at AICS and I ask that you, as parents, continue to support the school as you always do.

We will continue to monitor the situation closely and share updates as needed. Our priority remains a safe learning environment, continuity of education, and the wellbeing of every student.

Thank you for your continued cooperation and support.

Kind Regards,

Pretty Khosla

Pretty Khosla
